

# ACRYLITE® P-95 & ACRYLITE® DP-9 acrylic sheet

## Striking Yet Distinguished

**ACRYLITE® P-95 acrylic sheet** has a velvety smooth surface on one side (SC) and is engineered to enhance a wide variety of design applications.

**ACRYLITE® DP-9 acrylic sheet** is the same premium-grade cell cast sheet but with the velvety smooth surface on both sides (DC) for a finished look from any viewing angle. With its extremely smooth, soft appearance it just begs to be touched.

Both products are available in a plethora of colors with varying degrees of transmitted light – from colorless to translucent to opaque. With its unique light diffusing surface, the options for using these velvety materials are almost endless: retail displays, furniture, interior designs, light fixtures, signs and all other applications where an elegant but trendy look is desired.

### Features & Benefits
