

ACRYLITE®

acrylic rods and tubes

Product

ACRYLITE® acrylic rods and tubes are the clearest on the market today delivering brilliant quality, superior performance, and extended durability. ACRYLITE® rods and tubes are characterized by their flawless optics, perfectly-smooth surface free from striation.

The optical clarity of ACRYLITE® rods and tubes allow for a clear view of details making them well suited for store fixtures and point-of-purchase (P-O-P) displays. ACRYLITE® tubes are suitable for food contact under 21CFR177.1010 and are ideal for food displays.

Satinice Tubes

Tubes are also available with a frosted Satinice finish. ACRYLITE® Satinice tubes are made with a light diffusing polymer which creates a velvety non-glare surface. This surface hides fingerprints and scratches, while maintaining a high light transmission. This combination makes ACRYLITE® Satinice tubes ideal for exterior and interior lighting applications, as well as store fixtures and P-O-P displays.

Features & benefits

- Clear, distortion free viewing
- Dimensional accuracy and excellent circularity
- Superior UV resistance and weatherability
- 30-year non-yellowing warranty
- Enhanced chemical resistance due to higher molecular weight

- 11X stronger than glass for safe, strong installations
- Half the weight of glass for maximum design flexibility

Optical Clarity

The industry leading optical clarity of ACRYLITE® tubes is immediately evident when compared to lesser competitive products showing noticeable distortion and die lines.
